Subject: Bonjour!

Hello Vince!

I hope you are doing well and enjoying the summer thus far. I have been busy finalising plans for the upcoming volume 112 monograph meeting. The agents to be evaluated will likely include malathion, parathion, tetrachlorvinphos, diazinon and glyphosate. The first three have been previously evaluated by IARC, in group 3 in 1987. Should be interesting!

Everything here is very well, and aside from missing friends and colleagues I am enjoying my time here very much. I saw three films at the Institut Lumiere last week; if you haven't seen Sabrina with Humphrey Bogart and Audrey Hepburn, you may find it amusing. My favourite quote in the newspaper this week: "only 41% of Lyonnais will be on holiday in August". The cheese shop on rue Vaubecour already closed, the Matais boucherie will close today, and the boulangerie will close at the end of next week. But I understand that the markets will stay open so I hope I won't go hungry. I'll take a few days off in August but as you know most of the staff will be out for 3 weeks. Even Kurt had a record-breaking 3.5 week vacation this year!

Best from Lyon,
Kate
